## PROFESSIONAL SUMMARY

WordPress Developer with 2+ years of hands-on experience building, customising and maintaining high-performance WordPress websites. Skilled in custom theme and plugin development, Advanced Custom Fields (ACF), Elementor and WooCommerce, with a strong command of PHP, MySQL, JavaScript and jQuery. Experienced in building data-driven business portals — custom shortcodes, role-based access and reporting modules — alongside customer-facing e-commerce sites. Proven ability to optimise site speed and security, deliver fully responsive layouts across desktop, tablet and mobile, integrate third-party APIs and resolve complex production issues. Seeking an expert WordPress Developer role where technical depth and problem-solving deliver reliable, scalable web solutions.

## WORK EXPERIENCE

**WordPress / PHP Developer | Medlife Pharmaceuticals** — Lahore • Present

- Develop and maintain custom WordPress solutions, building dynamic, data-driven modules using Advanced Custom Fields (ACF) and custom shortcodes.
- Build custom PHP backend logic and MySQL queries powering field-force, attendance, approval-workflow and reporting features on a live business portal.
- Implement role-based access so each user group sees only its own screens, data and approval actions.
- Develop and maintain a WooCommerce storefront — product catalogue, categories, checkout and order flow — with a fully responsive front end.
- Optimise website performance, security and responsiveness across all devices; troubleshoot and resolve production bugs efficiently.
- Perform regular updates, backups and maintenance while collaborating cross-functionally to ship and refine production features.

**WordPress Developer (Remote) | Ezitech Software Company** — Rawalpindi

- Developed and customised WordPress themes and plugins to meet client-specific project requirements.

- Built responsive, cross-browser layouts using PHP, HTML5, CSS3, JavaScript and jQuery, ensuring consistent UI/UX across devices.
- Integrated third-party APIs and tools, and collaborated with design and SEO teams to implement website improvements.

**Data Analyst | Masood Textile Mills (MTM)** — Faisalabad

- Analysed and processed large operational datasets, transforming raw records into structured, actionable reports for management.
- Maintained data accuracy and integrity across systems, supporting reporting and process-improvement initiatives.

## PROJECTS

**Medlife ERP Portal** (WordPress / PHP / MySQL)

- Built a custom ERP portal for a pharmaceutical company covering employee attendance, daily activity tracking, approval workflows and management reporting, with data-driven modules built in PHP, ACF and custom shortcodes.
- Implemented role-based dashboards so field staff, managers and head office each see only their own data and actions.

**Medlife Healthcare Store** (WordPress / WooCommerce)

- Developed a healthcare e-commerce storefront: product catalogue and categories, cart and checkout, responsive layouts across desktop, tablet and mobile, plus performance and security hardening.

**Paws.pk** (MERN Stack)

- Pet care and accessories e-commerce platform with product listings, cart and a streamlined checkout experience.

**Trav-Ease.pk** (MERN Stack)

- Travel management platform for planning and booking trips across northern Pakistan, with a clean, intuitive interface.
